To Whom It May Concern:

It is with great pleasure that I write a recommendation for Alexandra Dyer for a full-time teaching position. I have had the opportunity to work with Alex for the past spring semester at Wissahickon High School in the capacity of co-graduation project coordinator.

Alex is a mature professional who is well organized and takes her profession seriously. She consistently works to improve her craft by seeking advice, asking appropriate questions, and using the resources around her. Alex's well thought out planning and calm demeanor works well with students at the high school level.

After twenty years in the teaching profession, I believe experience allows me to say that Alex would be a true asset to any teaching staff. Not only does she work well with students, but she is respected by her peers for her work ethic and ability to find middle ground.

If there is any question with regard to her reference, please feel free to contact me at any time.

Sincerely,

David Perrine
